a city of winnipeg analysis brought to you by the social planning council of winnipeg

Female Single Parents

Over 35,000 Winnipeggers are female single parents. Of this community, 15% are over the age of 65 and 15% are youth, or between the ages of 16 and 29.

62% of single female parents are in the labour force.

On average, women in Manitoba earn **\$0.89** to every \$1 earned by a man` on an hourly basis.

This does not take into account women`s over-representation in part-time, precarious employment.

51% of single female parents have a certificate from a post-secondary institution. 21% have not completed primary school.

The median income of single female parents is **\$33,071** (after taxes).

24.28% of female single parents identify as Indigenous.
